RESPONSE TO RESTRICTION REQUIREMENT

Mail Stop: Non-Fee Amendment

Commissioner for Patents

P.O. Box 1450

Alexandria, VA 22313-1450

Sir:

In response to the Restriction Requirement dated December 9, 2004, Applicants hereby elect with traverse Group II, Claims 12-15 drawn to a method for treating virus infections with a composition containing an anti-CD28 antibody and one or two reverse transcriptase inhibitors and one or two protease inhibitors. For the reverse transcriptase inhibitor, Applicants elect A) AZT, and for the protease inhibitor, H) RTV.

All the claims in the application involve related subject matter, e.g., anti-CD-28 antibody. A search would therefore comprise overlapping subject matter, and it would not be an undue burden on the examiner to carry out a search. "If search and examination of an entire application can be made without serious burden, the examiner *must* examine it on the merits, even though it includes claims to independent or distinct invention." (Emphasis added.) M.P.E.P. 803. Accordingly, withdrawal of the restriction is respectfully requested.
